

BUSINESS ALIGNMENT PACKAGE

Duration: 2 x 2.5 hour sessions

OVERVIEW

You didn't start this business to burn out. You started it **with purpose, with passion and with heart.**

But as things grow, they often get more complex. What once energised you can start to feel heavy. And it's easy to lose touch with the original spark that set everything in motion.

The *Business Alignment Package* is here to bring you back to the core.

It's your chance to **pause, zoom out and reconnect with the business** as it exists now — the business you've built, the leader you've become and the impact you're here to make.

Maybe you're entering a new chapter. Maybe you've got bold plans brewing. Maybe you're ready to create a deeper impact. *But first, you need clarity.*

Your business is only as strong as the person behind it. You are the energy-holder, the decision-maker and your presence ripples through the entire system.

We don't do surface-level fixes. We work at the root. *With you.* Your leadership. Your energy. Your way of working.

Your business is a living expression of your values, vision and purpose and when those are aligned, everything else starts to flow.

WHAT'S INCLUDED?

First up, we'll get you to answer a few questions to help us understand where you're at — what's feeling clear, what's feeling off and where you'd love more alignment. This is so we can make the most of our time together.

We'll tailor the two 2.5-hour sessions (5 hours total) to your situation, but here's what's typically included:

- ✓ **Business Audit & Alignment** - We'll get to the core of what's working, what's not and why. You'll leave with clarity on the misalignments and a practical path to move forward.
- ✓ **Your Personal Blueprint** - Using your PRINT® and Human Design, we'll explore how you're wired to lead, decide and thrive, and what that means for how your business should be built around you.

✓ **Strategy & Coaching** - We'll bridge insight with action, so you walk away with a focused strategy that reflects your strengths, values and leadership style.

This is equal parts self-awareness and business strategy.

It's about realignment, simplification and creating a business that supports you.

WHO IS IT FOR?

This is for business owners who are successful on paper but internally know it's time for change.

- ✓ Business owners (5-200 staff) who've outgrown their old ways of working
- ✓ Leaders who feel disconnected from the business they built
- ✓ Founders who know their business is meant to evolve as they do
- ✓ Visionaries who want more clarity, more alignment and a business that reflects who they are now

You've built something strong. Now it's time to make sure it reflects your values, your energy and the future you're here to create.
